

Environmental policy

We are committed to continuing to improve our environmental performance, minimising our environmental impact and making resource efficiency a core requirement of all our operations.

We will seek to promote good practice by others.

Energy and Water

We will work to reduce the consumption of water and energy within our building and reduce discharges.

Waste

DarkeJones will work to reduce the volume of waste within its buildings, by wherever possible:

- Reducing consumption of
- Repairing
- Re-using
- Recycling

all materials used within its buildings both in daily operations and other projects.

Transport

DarkeJones will monitor and work to reduce its contribution to environmental emissions from travel undertaken for business purposes.

Procurement

We will purchase goods and services to minimise adverse environmental effects. We will seek to undertake sustainable procurement actions that comply with EC regulatory requirements.

We will buy print from printers who have received ISO9001, ISO14001 and EMAS accreditations.

We will use local suppliers where appropriate and will encourage its suppliers to commit to improving environmental performance.

Our staff

We recognise the responsibility staff have in contributing to good environmental management. We will seek to harness and channel the enthusiasm and interest shown by staff and will provide appropriate information and support to ensure that all staff exercise their environmental responsibility.

Environmental credentials

We are implementing a phased approach to environment standard ISO 14001:2004 and BS 8555:2003.

Contact
